

GHANA WATER LTD

PRESS RELEASE

Wednesday: 10th June 2026

NOTICE OF COMPLETION OF REPAIR WORKS AND RESUMPTION OF PRODUCTION AT BAREKESE WATER TREATMENT PLANT

The Management of Ghana Water Limited (GWL), Ashanti Region, wishes to inform its cherished customers in the Kumasi Metropolitan Area, adjoining communities, and the general public that the repair works on the transmission pipeline at the Barekese Water Treatment Plant (WTP) have been completed at **4:00 a.m. on Wednesday, 10th June 2026**, significantly ahead of the scheduled completion period.

This achievement is a testament to the dedication, professionalism, and unwavering commitment of the technical and operational teams who worked tirelessly to ensure the timely completion of the repair works and the restoration of service to customers.

Management of GWL sincerely appreciates the patience, understanding, and cooperation of customers, stakeholders, and the general public throughout the repair exercise.

Management remains committed to providing safe, reliable, and sustainable water services and will continue to implement proactive interventions to improve service delivery across the Ashanti Region.

END.
